

Across our not-for-profit network, in more than 100 Northern California communities, we are building a truly integrated system that could one day serve as a national model for quality and efficiency.

Recognized Nationally

Truven Analytics recognized us in 2016, as a top five large health system in the nation for saving more lives, having fewer complications and spending less per patient episode of care.

Serving Diverse Communities

We compassionately care for more than 3 million patients from some of the most ethnically and economically diverse communities in the world; speaking more than 100 different languages.

We Give Back

Not-for-profit Sutter Health invested \$612 million in 2017 to provide care for patients in need and to support community health programs. At Mills-Peninsula Medical Center, we contributed \$9 million in 2017.

Caring For Underinsured

Our hospitals compassionately care for more low-income Medi-Cal patients in Northern California than anyone else – investing \$334 million in 2017.

Committed to Affordability

Our doctors and hospitals partner to reduce variation and adopt best practices. On average, total charges for an inpatient stay in a Sutter hospital are lower than what other Northern California hospitals charge.

Supporting Local Economies

As one of the largest employers in Northern California, we are more than 53,000 employees strong. We invested more than \$10 billion in the past decade to build and improve healthcare facilities and to launch cutting-edge technologies.

Mills-Peninsula Medical Center is a 241-bed state-of-the-art hospital with deep roots in San Mateo County.

Part of the Sutter Health network, Mills-Peninsula provides health care using the latest technologies and brings a wealth of resources and advanced technologies that ensure quality patient care to residents across the Peninsula.

Best of the Best

We are one of six Sutter Health hospitals to earn an “A” grade for patient safety from The Leapfrog Group® in its spring 2017 hospital scores.

Exceptional Stroke Care

We earned a “Get with the Guidelines®-Stroke Gold-Plus Quality Achievement Award from the American Heart Association/American Stroke Association in 2017 for providing a high level of stroke care.

For more information call 650-696-5400.
