Van Ness Campus

CPMC's Van Ness Campus offers remarkable care, remarkably close, with a focus on women's health, pediatrics, orthopedic care and services for older adults.

Excellence in Women's Healthcare Private Maternity Suites

Van Ness offers birthing options as diverse as our neighborhood.

- Midwives for childbirth and prenatal care
- Doulas for labor support
- Labor tubs and nitrous oxide for labor
- Prenatal yoga and massage
- Postpartum and breastfeeding support

Working together, these experts specialize in low-intervention care, with advanced medical care as needed. This collaborative approach results in our low cesarean and episiotomy rates.

CPMC Van Ness Pediatric Care 1201 Van Ness Ave

Sick kids don't take off nights and weekends, and neither do we.

CPMC offers pediatric care when and where you need it in the Mission/Bernal Heights neighborhood. We provide vaccinations, sports exams and screenings. We treat common illnesses such as colds, diarrhea, earache, fever, flu, rash, sore throat, upset stomach and more.

We also offer transition services for adolescents, helping them make the move from pediatrics to adult health services. Our licensed clinical social workers have close relationships with community resources. Working together, they help connect families with the resources they need to manage health issues.

Pediatric Clinic Hours

Open 8:30 am – 10:00 pm seven days a week

CPMC Van Ness ACE Unit Specialized Hospital Care for Older Adults

At CPMC's new Van Ness Campus, we strive to deliver ideal care for older adults. That's why we started the Acute Care for Elders (ACE) Unit. The interdisciplinary team led by an Elder Life Nurse Specialist helps elderly patients return home to their normal living situations.

The ACE Unit provides:

- A physical and occupational therapy room
- Group activity therapy, including music therapy, guided imagery and other activities that encourage socialization and mobility
- Rehabilitation with a focus on exercise, socialization and better sleep
- HELP (Hospital Elder Life Program), which develops a personalized care plan to help each patient stay mobile, social and prevent functional decline

Call 415-641-6482 to learn more or to refer a patient.

Exceptional Orthopedic Care

The CPMC Van Ness Campus will be a designated orthopedic center. You can expect the latest advances provided by top-notch physicians in the field. Services include:

- Hip and knee arthroplasty, including anterior hip replacement and minimally invasive surgery
- Complex hip and knee revision arthroplasty
- Joint resurfacing
- Shoulder replacement and revision
- Complex recurrent rotator cuff tears
- Complex fracture care
