

Across our not-for-profit network, in more than 100 Northern California communities, we are building a truly integrated system that could one day serve as a national model for quality and efficiency.

## Recognized Nationally

Truven Analytics recognized us in 2016, as a top five large health system in the nation for saving more lives, having fewer complications and spending less per patient episode of care.

## Serving Diverse Communities

We compassionately care for more than 3 million patients from some of the most ethnically and economically diverse communities in the world; speaking more than 100 different languages.

## We Give Back

Not-for-profit Sutter Health invested \$612 million in 2017 to provide care for patients in need and to support community health programs.

## Caring For Underinsured

Our hospitals compassionately care for more low-income Medi-Cal patients in Northern California than anyone else – investing \$334 million in 2017.

## Committed to Affordability

Our doctors and hospitals partner to reduce variation and adopt best practices. On average, total charges for an inpatient stay in a Sutter hospital are lower than what other Northern California hospitals charge.

## Supporting Local Economies

As one of the largest employers in Northern California, we are more than 53,000 employees strong. We invested more than \$10 billion in the past decade to build and improve healthcare facilities and to launch cutting-edge technologies.

*Sutter Maternity & Surgery Center is unlike any other hospital you may know. Part of the Sutter Health network, the 28-bed hospital offers state-of-the-art maternity and medical/surgical services, combining patient-centered care and family convenience with the safety and security of a licensed and accredited acute-care hospital.*

## Best of the Best

We were recognized in 2017 as one of 57 best overall patient-rated hospitals in the country by Becker's Hospital Review.

## Healthcare Equity

We were recognized in 2017 as a leader in LGBTQ Healthcare Equality from the Human Rights Campaign Foundation.

## Baby-Friendly Certified

We are certified by the World Health Organization and UNICEF as a Baby-Friendly Hospital, a distinction we've held since 2012.
