

## Family Involvement

Move Day will be very busy and we ask that only one family member participate in the move process.

Once you are settled, the rest of your family may come to your new, private room. Many staff and volunteers will be on-hand to help visitors find their way around the new hospital.

## Your Comfort

Because part of the move involves transporting you a short distance outside, you will be provided with a special "Move Day" blanket for your warmth and comfort. This blanket is yours to keep as a remembrance of your participation in this historic day.

# Moving to Your New Hospital

On Saturday, August 25, patients at Sutter CPMC's St. Luke's Campus will move to the new CPMC Mission Bernal Campus.

Our patients' safety and comfort are our top priorities. CPMC has planned for this move for XX years. This flyer contains important Move Day information, including what to expect and how to prepare. If you have questions or need additional information, please ask your nurse.

### **Move Date and Time**

Saturday, August 25, beginning at 8:00 a.m. We anticipate all patients will be moved by X:00 p.m.

### **Your Safety & Care**

We want you to be comfortable during the move process. Your physician will ensure you can safely move. Your nurse will help you prepare, direct the team moving you and make sure everyone understands your special needs. A team of trained professionals will be with you every step of your move.

### **Move Time**

The day before the move, your nurse will be able to give you and your family an idea of what time you will be moved. Your family member should plan to be at the hospital 30 minutes before your scheduled move time.

### **Mode of Transportation**

On the day of the move, you will be transferred either by wheelchair, gurney or bed depending on your needs and medical condition. Special equipment may be used during the transport, if needed.

The route to the new hospital includes transport by elevator to the XX floor, going out of the facility through the XX entrance, across a small, covered? walkway to the new hospital's XX entrance, to the patient elevators to your new floor and room. The entire trip from room to room should take approximately XX minutes. Moving To The Region's Most Advanced Medical Campus.

### **Personal Belongings**

Please have a family member take home all non-essential personal items, such as flowers, cards, magazines, gifts, etc. the evening before the move.

If possible, please have a family member take responsibility for transporting your clothing and any other personal items to your new room following the move.

Important items such as dentures, glasses, hearing aids, etc., will be placed in a bag labeled with your name and new room number and will be transported with you to the new hospital.
