

Across our not-for-profit network, in more than 100 Northern California communities, we are building a truly integrated system that could one day serve as a national model for quality and efficiency.

Recognized Nationally

Truven Analytics recognized us in 2016, as a top five large health system in the nation for saving more lives, having fewer complications and spending less per patient episode of care.

Serving Diverse Communities

We compassionately care for more than 3 million patients from some of the most ethnically and economically diverse communities in the world; speaking more than 100 different languages.

We Give Back

Not-for-profit Sutter Health invested \$612 million in 2017 to provide care for patients in need and to support community health programs. At Alta Bates Summit Medical Center, we contributed \$6.3 million in 2017.

Caring For Underinsured

Our hospitals compassionately care for more low-income Medi-Cal patients in Northern California than anyone else – investing \$334 million in 2017.

Committed to Affordability

Our doctors and hospitals partner to reduce variation and adopt best practices. On average, total charges for an inpatient stay in a Sutter hospital are lower than what other Northern California hospitals charge.

Supporting Local Economies

As one of the largest employers in Northern California, we are more than 53,000 employees strong. We invested more than \$10 billion in the past decade to build and improve healthcare facilities and to launch cutting-edge technologies.

Sutter Health's Alta Bates Summit Medical Center offers comprehensive services designed to meet the healthcare needs of the diverse communities of the greater East Bay Area. A tertiary referral center with 918 beds, the medical center is the East Bay's largest private, not-for-profit medical center.

Alta Bates Summit's 100 year tradition of commitment and service continues today, with recognition as one of the nation's top hospitals for clinical excellence and patient safety.

Best of the Best

U.S. News & World Report recognized us as "High Performing" in the specialties of Heart Bypass Surgery, Heart Failure, Colon Cancer Surgery, Orthopedics, & Hip Replacement in its 2017 annual hospital ranking.

Healthcare Quality

The American College of Surgeons certified our medical center as an Accredited Cancer Center in 2017.
