

Across our not-for-profit network, in more than 100 Northern California communities, we are building a truly integrated system that could one day serve as a national model for quality and efficiency.

Recognized Nationally

Truven Analytics recognized us in 2016, as a top five large health system in the nation for saving more lives, having fewer complications and spending less per patient episode of care.

Serving Diverse Communities

We compassionately care for more than 3 million patients from some of the most ethnically and economically diverse communities in the world; speaking more than 100 different languages.

We Give Back

Not-for-profit Sutter Health invested \$612 million in 2017 to provide care for patients in need and to support community health programs.

Caring For Underinsured

Our hospitals compassionately care for more low-income Medi-Cal patients in Northern California than anyone else – investing \$334 million in 2017.

Committed to Affordability

Our doctors and hospitals partner to reduce variation and adopt best practices. On average, total charges for an inpatient stay in a Sutter hospital are lower than what other Northern California hospitals charge.

Supporting Local Economies

As one of the largest employers in Northern California, we are more than 53,000 employees strong. We invested more than \$10 billion in the past decade to build and improve healthcare facilities and to launch cutting-edge technologies.

Sutter Pacific Medical Foundation doctors offer primary, specialty and complex medical care throughout San Francisco, Marin, and Sonoma Counties.

Part of the Sutter Health network, our 230+ physicians are dedicated to excellent patient care, combining the latest in medical knowledge and technology with a personal touch. The relationship between our doctors and Sutter Health facilities helps link both doctors and patients with local health care services, enabling the highest quality care.

Best of the Best

We earned a 5-Star elite status rating in 2017, the second year in a row, in the annual Standards of Excellence Survey conducted by the California Association of Physician Groups.

Healthcare Quality

We were recognized in 2017 with a 5-Star rating for providing high-quality care to Medicare Advantage patients by the Integrated Healthcare Association
