

Across our not-for-profit network, in more than 100 Northern California communities, we are building a truly integrated system that could one day serve as a national model for quality and efficiency.

### Recognized Nationally

Truven Analytics recognized us in 2016, as a top five large health system in the nation for saving more lives, having fewer complications and spending less per patient episode of care.

### Serving Diverse Communities

We compassionately care for more than 3 million patients from some of the most ethnically and economically diverse communities in the world; speaking more than 100 different languages.

### We Give Back

Not-for-profit Sutter Health invested \$612 million in 2017 to provide care for patients in need and to support community health programs. At California Pacific Medical Center, we contributed \$155 million in 2017.

### Caring For Underinsured

Our hospitals compassionately care for more low-income Medi-Cal patients in Northern California than anyone else – investing \$334 million in 2017.

### Committed to Affordability

Our doctors and hospitals partner to reduce variation and adopt best practices. On average, total charges for an inpatient stay in a Sutter hospital are lower than what other Northern California hospitals charge.

### Supporting Local Economies

As one of the largest employers in Northern California, we are more than 53,000 employees strong. We invested more than \$10 billion in the past decade to build and improve healthcare facilities and to launch cutting-edge technologies.

*California Pacific Medical Center is one of the largest private, not-for-profit, academic medical centers in California. A member of the Sutter Health network, CPMC's four campuses –with a total of 775 beds-- provide care to San Franciscans and beyond, and serve as an important part of the community's health care safety net.*

*As a tertiary referral center, CPMC provides a wide variety of services, including acute, post-acute and outpatient hospital care; home care and hospice services; preventive and complementary care and health education.*

### Best of the Best

Our Pacific Campus earned a 5-Star rating from Centers for Medicare and Medicaid Services in 2017.

### Healthcare Quality

The Joint Commission approved our Davies Campus as a certified Advanced Primary Stroke Center in 2017.
